

# April memories

---

We were honored at the SAL Awards Ceremony!

A few SWE members at our last outreach event of the semester!

# Member Spotlight

---

I'm Sarah Holdrup and I am a current freshman majoring in Environmental Engineering and minoring in Mathematics. I got involved with SWE at the beginning of this semester through Tea with SWE, and ever since then I have fallen in love with this organization. I am a part of Greek Life and many other clubs like UADM, Environmental Council, and ASCE here on campus, so before SWE I spent most of my time with social events, working on the recruitment/membership committee for my sorority, and service projects. Now that I have found my place in SWE, I have served as the Community Outreach Chairman, traveled to St. Louis, Missouri for the WE Local 2019 Conference, was an Activity Lead for WOW! That's Engineering!, organized a volunteering opportunity in the Tuscaloosa community, and I will be serving as the Vice President of Outreach for next year. Although my time as a member of SWE hasn't been extensive, to say that I love this organization would be an understatement. I have found a network of new friends and professional contacts that I believe I will have for a lifetime. I am so grateful to be a part of the Most Outstanding Organization on campus and I can't wait to continue to grow in my involvement in SWE over the next 3 years and in my professional career.
